

## Pheromone Review: 5 Top selling Pheromone Perfumes

Reading a **pheromone review** is helpful in deciding on which type of **pheromone** parfum to purchase. There are many types designed for women to choose from, so the decision may be extremely difficult. Some scents are subtle, while others are very bold. The personal aroma of the woman will also help the final outcome of the chemical combination, between the **pheromone scent** and personal scent.

- May take a couple of tries to find the right scent that actually compliments the woman wearing it, instead of overpowering her own odor.
- The type of perfume chosen will also be determined by its purpose.
- A few women are looking for love, several would like to feel more attractive, and others want to be wanted simply by every man she views.
- A pheromone evaluate of the various scents can help a female determine which type of perfume is best suited for her.
- The following information talks about the 5 state of the art pheromone-infused perfumes for girls on capabilities.
- Each one works differently and will create various results for the women who use it.
- Not every woman can expect to get the same results.
- If one sort doesn't work, after that trying another one is actually the next alternative.

### Top Promoting Perfumes:

#### Primal Instinct

- This odorless pheromone method that contains androstenol and copulins is very powerful.
- It can be used as-is or added to a **favorite perfume**.
- Those two pheromones boost chattiness and friendliness, as well as the amount of testosterone produced in men.

#### Scent of Eros

The floral fragrance found in this particular pheromone formula is very light. It comes in a bottle with a roll-top for easy application anyplace. Pheromones found within this particular formulation include androstenol as well as **androsterone**. The actual androstenol could be the pheromone in charge of a great increase in friendliness and chattiness, but the androsterone is exactly what has a bearing on the behavior of the woman putting it on. This may cause her in order to be more bold and assertive.
