

## The Power of Smell in Attracting Women

**H**aving problems attracting a woman into a one-night stand or into something more serious? Other than good looks, nice clothes, as well as great cars, there are also other ways on how to attract a mate. And that is with the power of smell.

### Better than Perfumes However, Using Just Any Kind of Perfume is Not Enough

There has been a new formula available in the market which is said to help in attracting a man or woman, making it easier for the men to get their one-night stands, while giving the women the power to send men on their knees. All of these effects by using **pheromones attract women** or men. Therefore what are **pheromones**?

Pheromone is a term typically seen and used in the animal kingdom, particularly among insects. It is said to be a secreted or excreted substance factor, through either scent or through some other secreted chemicals, that triggers a specific social response in the alternative and of the same gender. One popular example of such social response will be sex or procreation.

### However, Believe It or Not, Pheromones are Also Present Among Human Beings

Many experts have said that those with high levels of pheromone can get by easily between the opposite sex. This is the reason why a man, though not gifted in looks and in style, can still get those one-night pleasures easily through smell alone.

### Pheromone Mist

Pheromones are good at altering other people's responses. There are many types of pheromones, each with different purpose or different reaction. A number of such reactions include a signal for food, sex, and danger. Different kinds of pheromones have different influences on the behaviour. See this post about pheromone mist for Men.

- Other than just Sex However, other than just sex, pheromones can also be used for other important social interactions.
- A popular example of this is through job interviews.
- According to medical facts, those with greater looks can get a job as easily compared to those who only possess skills.

However, many medical facts have also stated which those with high levels of pheromones can get with that a lot easier when compared with those with looks alone. So using pheromone perfumes, along with their skills for the job, is a sure way to get hired.

“ Addition to that, the use of this formulation can also significantly increase a person's self-esteem. By easily attracting the opposite sex, or even dominating the same sex, may significantly boost a person's self-esteem, allowing them to do their tasks, such as their work, with ease and with confidence.
