Mistake (1)

Not putting in the effort. Keep in mind that pheromones usually are not some phantasmal chemical that will make women attracted to you when you have it on!

Yes, putting this on would help you get several indications of interest from women, but you also need to put in the effort.

- Dress nicely and have some interesting stuff to be able to converse about to better your chances of picking up a girl.
- Sitting in your butt and not saying anything won't help even if you have one of the best women attracting pheromones in the world for your use.

Avoid putting on too much pheromone onto the skin or the scent will be so juiced up, you may just wind up chasing that gorgeous girl away! I made this awkward mistake once and I nevertheless cringe every time I think about it...

Mistake (3)

My experience, high-powered formulations are generally unsuitable for beginners because you need to get a certain level of exposure to pheromones in order to make it work maximally.

- Recommend you choose to buy basic, all-around women attracting pheromones formula such as Alter Vanity.
- This kind of formula works well for a variety of reasons whether your goal is to break the ice, generate arousal or induce sexual desire.
